## PROFILE

I am a dedicated and results-driven final-year Information Technology student with strong skills in software development, databases, and systems analysis. Throughout my academic journey, I have gained hands-on experience in programming, web development, database management, and networking, supported by practical projects and team-based assignments. I am passionate about applying technology to solve real-world problems and continuously improving my technical and problem-solving skills. With a strong foundation in both theoretical knowledge and practical applications, I am eager to contribute to innovative IT solutions in a professional environment.

I am currently seeking a graduate or entry-level opportunity where I can apply my skills, grow my expertise, and add value to the organization through hard work, adaptability, and a commitment to learning.
